

TRUCK CAUSES WRECK

Break in Freight Car Damages
Track and Delays Trains at
Millersburg Sunday.

GALA WEEK IN SOCIALDOM

Fifty Confess Faith During the
Methodist Revival—News
in Millersburg.

A rear truck of one of the cars of a northbound freight train on the Louisville & Nashville railroad, due at Millersburg at two o'clock Sunday afternoon, broke when the train was about a quarter of a mile from this place Sunday afternoon, the train arriving here without any of the train crew having any knowledge of the break.

The broken truck did considerable damage to the track for some distance, tearing loose the rails and cutting up the cross ties.

The wrecking crew was called from Paris to repair the damage. However they failed to repair the track in time to allow the southbound passenger train through on time. The passenger train is due here at 5:02 and was delayed over four hours as a result of the wrecked track.

Besides the injury to the track and one freight car there was no other damage to the train, but the passenger was delayed here until after nine o'clock Sunday night.

This promises to be a gay week in Millersburg. Four entertainments are to be given in honor of Miss Elizabeth Allen who will wed Mr. J. M. Alverson on Saturday. This afternoon Mrs. W. F. Saunders will entertain with Five Hundred. Wednesday afternoon Miss Lannie Layson gives a linen shower. Thursday afternoon Mrs. J. Hall Williamson will hold an informal reception. Friday evening Mrs. O. W. Ingles, sister of the bride-to-be, will entertain the bridal party with a six o'clock dinner.

Large congregation assembled at both services of the Methodist church on Thanksgiving Day to hear Rev.

Harris the evangelist. At the close of the evening service a large number assembled in the inquiry room and a number professed conversion. Four applied for membership in the church making more than fifty who have applied for membership in the various churches up to this time.

Rain did not interfere with the revival Sunday night and a large congregation was present. At the Sunday School a Young Men's Bible Class was organized and the unusually large crowd attended the men's meeting in the afternoon. The majority of those present responded to the appeal of the evangelist to conduct life on a higher and better plan.

Rev. Harris made a very pathetic appeal to those present at the closing service, and a large number requested the prayers of the evangelist. Some of who were already members of churches applied for membership and admission to the local churches. Rev. Harris has won the confidence of the entire community as a science, earnest and able evangelist. He would be heartily welcomed should he return again.

By far the greatest attraction which has been seen at the Paris Opera House in years will be that of Sousa's Band, which will appear for one matinee performance only on next Friday afternoon, December 2, at 2 p. m.

Sousa is today recognized throughout the civilized world as the greatest living band master. His compositions are played everywhere that music is heard. There is something about Sousa music which appeals to every ear. His present band consists of sixty-five pieces, and they are inaugurating a tour of the world which will last for two years.

It is very seldom that a town the size of Paris has an opportunity to listen to an attraction of this magnitude, and it is hoped that everyone who can will avail themselves of the opportunity.

The advance sale of tickets will commence at Mitchell & Blakemore's on Wednesday morning. The prices will range from 50 cents to \$1.00. Orders by mail or telephone will receive prompt attention.

The Beauty of Cleopatra

Is not the heritage of every woman. Neither do we promise to make you as pretty as that wonderfully beautiful Egyptian. But we can add charm and a velvety softness to your skin by our massage treatment. It is impossible for us to supply what nature has not. But if you want a peachy, perfect complexion, you'll start the right way by letting us massage your face with massage creams, the purity of which we are ready to vouch for. It is nature's best aid in restoring healthy skin. You can rub and rub and rub the face with soap and still not get it perfectly clean. The massage way is the only way.

The New Vital Statistics Bureau.

At Bowling Green active preparations are being made for the operation of the Bureau of Vital Statistics law, which goes into effect January 1, 1911. This law provides for the reporting and recording of all births and deaths and the collection of morbidity statistics. It is a department of the State Board of Health and is one far reaching in its importance to the welfare and lives of the people of Kentucky.

Kentucky has placed herself in the front rank of states doing most for the preservation of health and in the establishment of a Bureau of Vital Statistics she is the first of the entire South to take this long neglected step. Ohio, Massachusetts, Indiana, Pennsylvania, Wisconsin, Maryland, Missouri, California and nine other states have in successful operation such a department for the permanent maintenance of records of births and for a more successful fight against the ravages of disease, by means of the certificates of deaths returned to the State Office.

The State Registrar, Dr. W. L. Heizer, who will inaugurate and manage the Bureau of Vital Statistics, has just returned from an extended visit in Ohio, Michigan, Pennsylvania and Washington, D. C., where he studied the operation of the law in those States which are declared by Dr. Cressy L. Wilbur, chief statistician of the Federal Government, to be the best in operation in the United States.

Kentucky's Bureau will be a combination of the best features of these states with some suggestions of the Census Department added.

Under this law, before a body is buried, the undertaker must procure a burial or removal permit, which shall be issued only by the local Registrar, who will be placed at convenient localities. This permit can be only when a certificate of death has been filled out by the physician, and in the event the person has died of an infectious or communicable disease, smallpox, cholera, diphtheria, scarlet fever, erysipelas, before a burial permit is issued the body must be so prepared for burial that there is no danger of a spread of the disease in the community. This not only safeguards the public, but by means of these reports of deaths coming in from all over the State, properly tabulated and classified, the State Board of Health is able to learn the infected districts and spots that need cleaning up. Through its sanitary inspectors and engineer, the cause of such prevalence of disease is learned and proper regulations enforced as will stop the needless slaughter of the citizens of the Commonwealth.

The entire force of the Bureau and State Board of Health is engaged in appointing suitable men at distances of a few miles, over the State. These are the Local Registrars, who not only will report births and deaths, but arrangements are being perfected so that they will report the cases of infectious and dangerous diseases that occur in their districts and which do not necessarily die. When this system is in operation Kentucky will be on an equal footing for procuring these vital facts as the state of Pennsylvania, which spends the sum of \$3,000,000 each year for health work.

The voting precinct is being used as the unit for the territory each Local Registrar will cover in his reports. When two or more units can be combined to advantage, resulting in no inconvenience to the people, this arrangement is made. Already hundreds of acceptances have been received from men all over the state and include bankers, lawyers teachers, farmers clerks, and in nearly all instances, people who are interested in promoting public health work. It is mainly the work of sending the proper blanks and instructions that will occupy the time till the operation of the law on Jan. 1, 1911.

STOCK, CROP AND FARM NOTES.

MT. STERLING COURT.—There was a large crowd in Mt. Sterling to the November Court, business in all lines being brisk. A large run of cattle was on the market, about 50,00 to \$6,000 head. The quality was medium. The best 1,000 pound cattle brought \$4.90, the bulk of sales being at 4 1/2 to 4 3/4 cents; yearlings from 4 to 4 1/2 cents; heifers from 3 to 3 1/2 cents; cows from 2 1/2 to 3 1/2 cents. Prices were off from 20 to 40 cents from last court, and trade was brisk. Buyers for slop cattle were in evidence and made heavy purchases.

A news note from Carlisle says it has been announced in that county that the first distribution of the 1909 tobacco money will be made on or about January 1, 1911. For the past year trade has been below normal in Carlisle but the merchants now report that business has about assumed normal condition, but that collections are none too favorable. The close financial condition has caused speculators to be slow in making investments, for the scarcity of money has been such that it could not be had at high rates of interest.

Wants to Succeed Siler.

Hon. John J. Craig of Covington, was here Tuesday and announced his candidacy for the Republican nomination of Railroad Commissioner from this, the Third railroad district, to succeed A. T. Siler. Mr. Craig is one of the best known Republicans in the State and has held many responsible positions in Kenton county, and is now Mayor of Covington. Mr. Craig believes he has an excellent chance to secure the nomination, which is equivalent to an election. He has begun his campaign early and it is not known who his opponents will be for the nomination.

To Fight Plague With Pictures.

The moving picture as an educational agency in combating the spread of tuberculosis, will be pressed into service this month when films showing how the complaint is bred in tenements and how it is fought, will be exhibited simultaneously on screens in 7,000 theatres throughout the United States. The projectors are of the opinion that the pictures will be viewed by 10,000,000 people a day, and that it will prove the most effective lesson that could possibly be taught.

The pictures, which were arranged for by the National Association for the Study and Prevention of Tuberculosis, were shown experimentally in New York and proved clear and distinct.

Eleven Men Pardoned.

Governor Willson Friday issued pardons to Harve McDowell, Will Brown, Tom Crowe, Erin Bisby, H. Williams, Henry Rackett, Cash Conroy, Lukk Crowe, A. N. Barnhill, Floyd Ross and Dud Newman sentenced to seven years in the penitentiary charged with manslaughter. The men during a quarrel murdered a traveling man from Louisville A. B. Berry and F. B. Carter of Chattanooga also a traveling man. The killing occurred in the summer of 1908. The men were sent up from Webster county.

Scott's Emulsion

is the original—has been the standard for thirty-five years.

There are thousands of so-called "just as good" Emulsions, but they are not—they are simply imitations which are never as good as the original. They are like thin milk—SCOTT'S is thick like a heavy cream.

If you want it thin, do it yourself—with water—but don't buy it thin.
